SUMMARY

I am a dedicated student at NIAT, passionate about leveraging technology to create innovative and impactful solutions. Currently, I am deepening my expertise in Python, and Web Development while actively exploring the transformative potential of AI and Machine Learning. My interests lie in designing scalable systems and leveraging emerging technologies to solve complex problems. With a strong focus on building robust foundations, I am committed to mastering Data structures and contributing to personal and collaborative projects that push the boundaries of technology. My long-term aspiration is to become a leader in the tech industry, driving advancements that improve lives and empower communities. I am eager to connect with like-minded individuals and professionals who share a passion for GEN AI, Machine Learning, and innovative problem-solving.
